

"Super Store Analysis"

◆ Insights:

- It serves as a central menu linking to:
 - **Sales Performance**
 - **Category Analysis**
 - **Customer Insights**

◆ How it helps:

- **Easy navigation** makes analysis faster and decision-making more efficient.
 - Clear sectioning helps **different departments** (sales, marketing, inventory) to focus on relevant KPIs.
-

2. Sales Performance Overview

◆ Insights:

- **Top Segment:** Consumer has the **highest sales and profit**.
- **Top Region:** West is leading in **sales**, followed by East.
- **Lowest Segment:** Home Office has the **lowest sales and profit**.
- **Trend:** Consistent sales increase in Qtr 3 and Qtr 4 – possible festive or seasonal boost.

◆ Actions to Get More Customers:

- Run **regional campaigns** in South and Central to boost sales there.
 - Use **seasonal promotions** in Qtr 3/Qtr 4 across all segments.
 - Offer **Home Office bundles** to improve weak-performing segment.
 - **Customer profiling in top regions** can reveal replicable buying patterns.
-

3. Category & Product Analysis

◆ Insights:

- **Top Category in Sales:** Technology (~38.4%)
- **Top Sub-Categories:** Phones and Chairs are bestsellers.
- **Profit Trends:** Technology consistently brings in more profit monthly.
- **Lowest Sales/Profit:** Furniture category shows weakest profit contribution.

◆ Actions to Get More Customers:

- **Upsell Technology accessories** with high-performing products like Phones.
 - Promote **Office Supplies & Furniture** with combos or discounts.
 - Launch **monthly feature product campaigns** based on trending items.
 - Use sub-category sales insights to **refine inventory & offers**.
-

4. Customer Insights Overview

◆ Insights:

- **Top Segment for Customers:** Consumer again dominates in both sales & profit.
- **Customer spread** shows heavy skew toward a few customers – long tail opportunity.
- **Sales & Profit by Category:** Technology wins again; Furniture is weakest.

◆ Actions to Get More Customers:

- Identify and **reward high-value customers** in Consumer segment with loyalty perks.
 - **Target Corporate and Home Office** with special B2B offers or referral programs.
 - Provide **personalized promotions** based on buying patterns.
 - Launch **customer satisfaction surveys** to understand low-engagement areas.
-

Overall Recommendations

1. **Double Down on What's Working:**

- Consumer segment, Technology category, and Western region.

2. **Improve Underperforming Areas:**

- Home Office, Furniture category, and Central/Southern regions.

3. **Targeted Campaigns:**

- Seasonal promotions based on Q3/Q4 spikes.
- Email campaigns or in-app alerts for low-performing regions/products.

4. **Use Data to Personalize:**

- Use customer names and segment breakdown to build **custom journeys**.

5. **Balance Sales with Profit:**

- Ensure high-sale categories also contribute proportionally to profits.
